A PROSPEROUS NATION.

The United States is growing rich faster than any other nation in the world. While Germany lays by a trifle of \$200,000,000 a year, Great Britain \$825,000,000, and France \$375,000,000, Uncle Sam's annual accumulation is \$825,000,000. U. S. saves enough every year to buy Spain or Italy. The increase of wealth in this country since 1850 is more than the worth of the whole German Em

Although the United States is getting rich so fast, it has not yet had time to catch up to some of the older nations. Great Britain is the wealthiest nation-worth \$44,400,000,000 France comes next with her \$36,700, 000,000, and the United States third, with \$32,00),000,000. In tea years more the United States should be the wealthiest nation on earth.

As regards the average income per inhabitant, the United States suffers nothing by comparison with any nation. It stands in the front rank with Great Britain, the average annual income being the same in both countries, viz., \$165. In France it is \$125; in Germany, \$85.

EDITORIAL NOTES.

Little of the stock in De Lessep's Canal Company has been taken in America. The canal will be constructed with foreign capital, and its ownership will be almost entirely in Europe. It will run through territory owned by the United States of Colombia. It is held by the New York Tribune that, while the United States should offer no obstacle to the enterprise, it should obtain possession of points for fortification at the termini of the canal. This is urged because it would be in the power of any foreign nation, Spain for instance, to send ships of war through the canal to bembard the ports on our Pacific coast. iu case of war with the United States, unless our Government could control the passage by means of adequate for-

Small-pox seems to be increasing again in San Francisco. On Sunday four new cases were verified, and five on Monday. A child died of the disease on Sunday. It has been impossible, in many cases, to trace the source of the contagion. Thus the Bulletin says that recently a young man was inta street car, and feeling ill, stepped into a doctor's office, where he was informed that he had a mild form of small-pox. What an interesting discovery to the young man that must have been.

"Help! Help! A white man overboard!" yelled a man who fell off a wharf into San Francisco bay. When rescued, he explained that he was afraid of being mistaken for a Chinaman and left to drown. No aneedote has better illustrated the rooted antipathy to the Chinese that prevails among the laboring classes in Cali-

Snakes in Southern California do not get torpid in winter. A Gospel Swamp farmer relates that he ploughed up a "rattler" the other day and the "varmint" instantly struck at him twice and "shook his tail like all pos-

Railroad Commissioner Beerstecher who was shot by Antone Fisher in San Francisco, is out of danger. He has discovered that his life was saved by a buckle on his suspender, from which the ball glanced in its passage towards his heart.

The suicide of the President-elect of the Swedish Confederation is attributed to the fact that his election was secured by a relatively small majority. That cause never produced suicide in this country.

While even the sage-brush looks withered and dead in Nevada, on the other side of the mountains, down south in Santa Barbars, the roses are in bloom and delicate violets unfold their petals to the sun.

RenoEvening Gazette for seventy years has never been absent a single day from his office on ccount of illness.

> The New York Tribune predicts a financial crisis similar to that of 1873, as a result of railroad speculation. What can Jay Gould be up to now!

The most costly building in the United States is said to be the Mormon Temple. Its total cost, when completed, will be \$27,000,000.

Gov. Sprague announces his intention to prove in open court that his wife has been guilty of adultery with Senator Conking.

There were 183 votes cast for Chinese Immigration, at the November election in Nevada, and 17,259

The more one reads of the specula tions about Garfield's Cabinet, the less one seems to know.

HOW TO CURE COLDS.

Every House-A Cough Mixture an a Gargle, Sweating, etc.

From Hall's Journal of Health.

A cold in the head can fusually be cured in a few hours, if, as soon as it is discovered, the person will sniff the fumes of ammonia or spirits of camphor every few minutes as strong as they can be borne. When a severe cold attacks the throat and lungs, there is no safety in neglecting it for an hour, for there is more or less in-flammation of the lungs, which interferes with their action, rendering them liable at any moment to take on serious, and possibly uncontrollable disease. Go home and remain there. In the evening take a warm foot bath, and at bed time take three or four and at bed time take three or four liver pills. These will stimulate the liver to healthy action, and promptly relieve the lung trouble; but it renders the system sensitive to renewed attacks, and, therefore, the greatest care should be observed for several days not to take fresh colds. Ordinarily no other treatment is necessary. narily no other treatment is necessary; but, should the cough continue, have your druggist make the following mixture, and take one or two tea-spoonfuls every hour till cured: Gly-cerine, 4 ounces; whiskey, 4 ounces;

morphine, 1 grain.

Sore throat can be promptly relieved by applying a mustard plaster, or "mustard leaves" on the front of the neck over the sore spot. In addition the throat and mouth may be frequently gargled with the following mixture: mixture:

teaspoonful of salt, a pinch red pepper, and a tablespoonful of vinegar. If found too strong, add a little water. A portion of the gargle may be swallowed, or sipped, little at

Sweating has been quite generally recommended in the cure of colds. I think, however, that the risk of taking cold afterward will more than counterbalance the good that may be ex-pected, and, except in cases of unu-sual severity, I would not recommend

The "Turkish Bath" has been recommended as a cure for colds. With proper care afterwards, there is no better or more effectual plan of cut-ting short a severe cold. It is not, however, necessary to go to a regular establishment to take such a bath. Any small comfortable room, where a good fire can be quickly made, will enswer the purpose. In the early evening make a good fire in the stove and close the doors and windows, leaving only small openings for ven-tilation. Then let the patient put on tilation. Then let the patient put on his night clothes and lie down on a bed or sofa, or sit in an easy chair for an hour or more, with the tempera-ture of the room from 90 to 100 deg. F. Afterward the room should be gradually cooled to about 70 deg., and the patient should go to bed and re-

Cured By A Fail,

main there till morning.

An attendant at the Oregon Insane sylum was told to climb a tre bring down a patient who had taken a position in its top. He had reached bring down a patient who had taken a position in its top. He had reached a height of thirty feet when a limb broke, and he fell, bouncing from branch to branch, and finally sitting on the grand like the hammer of a pile driver. For twenty years this man had been dumb, though able to hear, but now the spectators were astounded by such an outbreak of fluent and shocking profanity as they had never heard before. The cure was permanent too. ermanent too.

Wants An Honest Dollar.

We are in favor of a new silver dol-lar with a handred cents worth of coin in it, and an eagle instead of a buzzard to back the Goddess of Liberty. This is our financial platform for the

still continues in the Justice's Court. The evidence for the prosecution was is sinking a shaft, and proposes to all in at noon to day. The case will probably not be decided before to-

the prospects are good for ore to run tained its standing as a first-class the little mill on. If one or two good Every kind of mines should be found, it would be roods and merchandise can be found there. Mr. Peyser invites every one to call and see how business is valley, as they would have a sure and done at the Mechanics' store.

McLaughlin & Morgan advertise their readiness to do all kinds of house and sign painting, paper-hanging, kalbeen in Reno since last March, and their work gives satisfaction. Orders com be test at Central Hotel,

the Valleys of the Sierra

The most conspicuous feature of the landscape in all Plumas county is the works of the Plumas Eureka mine. It is located on the top of a high bar ren mountain, and its upper tunne and building can be seen for miles and miles. The mountain is known a "Seventy Six," from the first mine located on it, which is now part of the Eureka. The mine is the best in the State of California, at this date. The rock goes from \$6 to \$13 a ton in gold, and there is a vast body of ore. The mine is worked by tunnels runing in on the mountain side. Three are now in, and a fourth is being run which will be over a mile in length. Two mills keep grinding out the gold day and night. The upper one is of 48 stamps; the lower, 40. Twenty more are now going in. It is said that Chamberlain, of the Depot Hotel, and by careless milling the bonanza is in the tailings, which run off down Jamison Creek, and are worked by Italians with arastras, who pay \$100 a day each for the privilege. There are 37 arastras going, and the sight is somewhat peculiar. Johnstown is the name given the settlement at the mills. The ore is carried down on a tramway, and the cars are handled with wire ropes. or down is equal to a balloon ascension for danger and excitement. month) a little pine shanty town, sitof a large hold-bearing basin, which is as the following extracts show: very rich, from the indications. Jamson is 27 miles from Quincy, and is two miles off the road home. To reach the main road, a heavy grade down a finely-timbered ridge, must be gone over, and the traveler finds himself in Mohawk Valley. This fine valley is about 7 miles long, but very narrow. It is a succession of beautiful pastoral scenes, where farms have

been cleared up among the timber-A STRING OF EMERALDS on Mohawk Creek. The principal crop is hay, which brings from \$20 to \$25 a ton at Jamison and the Europe mine. There is a post-office named Wash for the convenience of the farmers. Mrs. King is the postmistess. The farmers all seem well to do and several have fine homes. Mr. Denton is a heavy cattle dealer. Mr. Nesefull of deer and bear. Grouse and

man has built a nice house recently. Mr. McClair has a very fine residence at the Hot Springs. Mohawk creek is full of fish, and the woods are quail are always plenty. L. J. Flint, who makes a yearly visit, says the valley is the best hunting and fishing ground within reach of Reno. Probinterests the young ladies this week. valleys will dispute the point. In the west side of the valley there are a well. One of the finest kind of specimens, worth \$110, was washed out by a young man named Perry last fall. On the east side are a number of locations in quartz croppings, mostly made by Reno men. Weston, Laws & Co. have moved the little twostamp mill from Reno out and put it up on the Neseman mine. This mine was the first location, and one little pocket paid \$2.000. The rock was worked in an arastra. Chamberlain, Poe, Flint and others are interested in a number of locations at both ends of the Neseman mine, There has never been any systematic prospect ing done, and the most that can be said is that it looks like a good place te venture some money. The croppings and clay all over the mountain side assay well in gold. Chamberlain crosscut, to see if there is a ledge. shaft will also be sunk to a depth of 100 feet on the Neseman mine, and

THE MAKING OF THE PARMERS not only in Mohawk, but in Sierra steady market for all the hay, vegetables and fruit they could raise. Their price would be the cost at the nearest market, with freight added. They ng, gilding, etc. They have ought to be very glad to see outsiders the pad chafed him. Then it came coming in with money to prospect, but out that he had been wearing the pad that they have no means to work, and num" to mean that region,

Reno Evening Gazette MOHAWK, SIERRA AND SARDINE. thus play the dog in the manger. A very fine body of timber lies between Mohawk and Sierra valleys. The de mand for lumber is light. McNair brothers have a mill near the Summit where they can haul lumber down hill into either valley. Rocky Point postoffice, kept by Mrs. Yerington, is on the road close to Sierra valley, and is a great convenience to the neighbors The ride across the valley is almost always a pleasant one. The vast hay fields stretch for many miles to the east and north, and beyond them on every side rise the everlasting hills. The center of the valley is swampy, and, in consequence, the road must go up the west side and around the head of the valley. Between Sierra valley and Sardine, there lies "quite : chunk of a ridge," covered with a very heavy body of pine and fir timber. Sardine is a small valley devoted to dairying. The barn now used by John Fleckanstein is the frame of saw mill built in 1864 by W. R. Al. Lyman, of Engine 48. The road from Sardine is over the old Henness Pass, through Dog valley and Crystal Peak, and over the well-known road north of the river to Reno.

"Rip Van Winkle" To-Night.

Robert McWade, the famous actor will appear in the Nevada Theater The rails are set on trestle works, 70 this evening as Rip Van Winkle, in feet high in one place, and a ride up new dramatization of Washington Irving's charming story of the vagabend of the Catskills. Mr. McWade Jamison is (or was before the fire last is too well known to require any recommendation. He has been perform ting in the canyon of Jamison Creek, ling in Carson to crowded houses, and It is just as large as Johnstown. A while the papers there have not given large bed of gravel lies under the much praise to his "support," they own site, and is supposed to be part have highly commended his acting,

being prospected by a shaft near by.
It is expected that the bedrock will be very rich, from the indications. Jam-House to a large audience. If the test of dramatic success be the effect produced on the sensibilities of the auditors, last evening's performance certainly merits a verdict of unqualified approval.—Carson Times.

McWade gives the character to the life, being in some portions the equal if not superior of Jefferson. He was especially good in the parting scene, where he is rudely thrust from home by an over-tried but loving wife So natural was this scene that stout men and women in the audience gave vent to their feelings in tears.—Carson

Mr. McWade is now traveling with a company made up in San Francisco. The leading lady is from the east and has played with him in his starring tour through the United States. Mr. McWade will soon set out for Australia.

A Rude, Rough Wind.

The weather in Reno has not been monotonous of late. Last evening a "zephyr" sprang up suddenly, and howled down the chimneys, whistled round the corners, groaned under the bridges, and generally made things dismal for everybody. Immense clouds, inky black, flung themselves across the sky, only to be caught and whirled away their fragments to the limits of the herizon. Sometimes a big cloud would drop suddenly on the Sierra and disperse itself in snow before the wind could get hold of it. and then the wind would howl worse than ever, and rave, and tear the firmament, and rattle down showers of hail into the valley. This rude antic wind would lull itself at times, and lie in in wait for ladies at the street corners. Then when it found one fairly on the crossing, it would rise up, more boisterous than ever, blow her into the mud, twist her skirts into seen ingly inextricable confusion, and expose to the heedful masculine eye the particular style of hosiery favored by its victim. Sometimes the sky would be overcast for minutes at a time, but the wind would soon sweep away the rack, and reveal the great stars shining in unclouded splendor. Towards daybreak the storm had spent its fury, and the branches of the trees were still when the morning glories appeared in the eastern sky.

A Pad in the Wrong Place.

A Honey lake man bought a "disinfecting pad" from a Reno drug store not long ago, with the object of warding off small-pox. The printed directions read that it should be worn over "the sternum," which is the breast bone. Yesterday the man came back to the druggist and complained that some of them try to hold claims that below the loins, supposing "the ster-

county, is in town. Capt. Flanagan, who has been sick

or some weeks, is getting better. Capt. Griffin is in from the Antelop mine. He goes back to-morrow.

Harry Hunter and family, of Car son, will arrive from the east to-mor row night.

Senator Powning and wife returned from California this morning. The Senator srrived a little late for that champagne of Col. Fair's.

Walter W. Fulmer will be a candidate for Page in the Assembly. Walter is a bright boy and would make him self very useful to the members.

A Disastrous Runaway.

A. F. Kinney's s' an of horses, har essed to a buggy, an away cout 8 clock last evening, starting from Hymers & Comstock's stable. At the corner of Virginia and Second streets Chinaman was struck on the head by the pole of the buggy and danger ously injured. The horses ran down Center street and up Commercial Row, crossed the railroad and turned from Sierra street into Fourth, finally upsetting the buggy on Ralston street and tumbling into the mud them selves. The vehicle was much broken but the horses were little injured.

The Chinaman is said to be out o danger this afternoon.

Killed by a Locomotive.

On Sunday afternoon a sectio and was killed near Bronco by light engine running from Truckee to Reno. The man w. lying on the track and the engine. over him. A bottle of whiskey was found in his pocket, and a demijohn of the same fluid lay near him. Le had evidently been intoxicated, and was not seen in time to prevent the accident.

Next Monday.

There will be a stir in the Court House next Monday. On that day the District Court will open for the January term, the County Commissioners will be in session, and newly elected County Officers will assume their duties.

The Last Week.

The offer of the Weekly GAZETTE for 1881, for ONE DOLLAR, holds good till January 1.

TALK IS CHEAP

Gentlemen's

FINE

GOODS.

If you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this State. Everything we have is new. No old, musty and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost an I even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. We make a proft on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of decieving the public. One must make a profit to live. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods form one of our specialties. Orders from the country promptly at-ended to. Look out for the White Building with the Gold Sign.

White House, No. 19. Commercial Row.

ABRAHAMS BROS.

May the Twelfth Day of Ju

Between the hours of 9 o'clock A. M. and 8 o'clock P. M. of that day to-wit: At 1 o'clock P. M. THE BOSS!

MISCELLANEOUS.

Edison Outdone

Over 150,000 Sold.

Patented April 2, 1878, June 11, 1878, and July 8, 1879.

Boss Coffee, Tea Pots & Urns.

It is the Boss? Why? Because it produces
Boss Coffee. Boss coffee.

It makes rich favored Coffee! Why? Because all the aroma and food are retained. It beats them all! Why? Because it saves 100 per cent over boiled Coffee, which is not Coffee, but bitter water. Second—Because it saves 50 per cent. over any other method of making Coffee. Third—Because if saves eggs and trouble of clarifying. Fourth—Because it makes Coffee as clear as red wine. Fifth—Because it takes only two minutes to make Boss Coffee.

While Edison may farnish light to millions. the BOSS will assuredly give health to all who use it. Thousands have become dyspeptic and bilious from dribking boiled coffee or BITTER WATER, (boiled coffee is not coffee, but bitter water POISONED with coffee picotine). Stop drinking boiled coffee. Make your coffee as NATURE ORDAINED, and restore your health. Many inventors have racked their brain to farnish the human family with a practical method of making coffee. At last the HAPPY RESULT has been accomplished in the production of very cheap and simple Pots and Urns celebrated as the BOSS.

To Whom It MAY CONCERN.— After thoroughly testing the BOSS COFFEE POT, we, the undersigned, fully endorse the same as the best method of making Coffee we have ever seen. Besides saving eggs, it will save a large per cent. of the Coffee. It produces Coffee as clear as wine, which is much stronger, and has a more delicious flavor than any coffee, made by any other process. Coffee as clear as wine, which is much stronger, and has a more delicious flavor than any coffee made by any other process.

YOUNG MEN

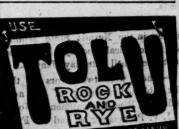

There are many at the age of thirty and starty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smartfug or burning sensation and a sweakening of the system in a manner the patient cannot account for. On examining the urinary deposites a ropy sediment will often be found, and some small particles of albamen will appear, or the color will be of a thirmilkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal wealth of the second stage of the seminal wealth of the second second stage of the second stage of the second stage of the seminal wealth of the second second
